· Over 50,000 graduates working worldwide.

CityUniversity of Seattle

Student Voice: *Anudari*

"I can proudly say that my two brothers have both graduated from CityU and earned their MBA degrees.

Now they are both working at international and local banks in Mongolia and started good careers."

SEATTLE, USA:

Population: 725,000 (3.5 million in metro area)

Average summer temperature: 18.3°C

Average winter temperature: 5°C

Average rainfall: 926mm (compare to Taipei - 2,129mm or Ho Chi Minh City – 1,905mm)

Percentage of population with Bachelor's degree or higher: 49.3%. Seattle is a great place to live, learn, and improve your career and is one of the fastest growing economies in the United States, with a highly educated population and clean environment.

"Best US State" Washington State was ranked as the 'Best State' in the United States by U.S. News and World Report in 2019. The Economy, education, healthcare, crime, and infrastructure are some of the factors that contribute to Washington State's excellent livability ranking.

"World Class Companies" Seattle is home to some of the world's top technology businesses, including Amazon, Microsoft, and Starbucks. CityU Alumni alumni work at these top companies; our curriculum is designed with company needs in mind.

GET YOUR PMP!

CityU is one of the few schools globally accredited for Project Management by the Project Management Institute (PMI), and the classes in the Project Management Master's program count towards the required coursework for the Project Management Professional certification.

Faculty Focus: *Dr. Laura Williamson*

As the director of CityU's most popular program – the MBA program – her students hold leadership positions at many major companies in both Seattle and worldwide – including Amazon.com, Microsoft, Boeing, and Starbucks.

Dr. Williamson knows what knowledge students need to succeed, but also the skills that employers are looking for when they are hiring their future leaders – which is what makes the CityU MBA so popular among students from the U.S. and around the world.

Student Voice: *Pei-Ru – (Taiwan)*

"CityU helped change my future goals."

Many assignments are designed to guide students towards a deeper insight of themselves and their career. It helped me identify what I really want to do in the future. My favorite class was Family System Theory, which was very interesting to learn about. Since Asian people tend to be more collaborative and emphasize family relationships, this course can really connect with my own experiences in Taiwan. A course that is connected to my life experience is much more fun to me.

Student Voice: *Karthik – (India)*

"One of my instructors was teaching the course like a real work team and we had to manage real solutions."

He shared his experience at working for Microsoft, and it allowed us to understand how the industry will be. One of my favorite projects was software testing. Our professor was developing code and I was a team leader and led software testing as a team unit. He was greatly impressed with our final presentation.

BACHELOR'S AND ENGLISH PROGRAMS
